Everyone Has A Legacy Why Not Document Yours?

Everyone has a legacy.

The question is: What will you do with yours?

Ensure that your legacy is captured, documented and passed on to future generations.

What will you leave behind for your children, grandchildren and generations to come?

Do they know your life's story? Do they know you?

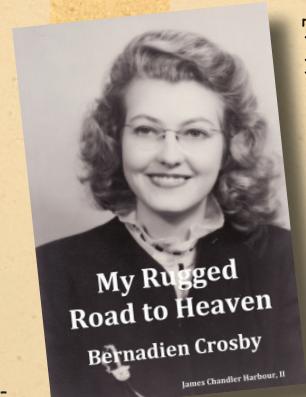

Everyone has a story, a legacy. But for many, they just don't

know how to start this process. Writing a legacy can be a daunting task.

That's how I can help.

"Family Wealth" is not about financial assets. It's about human and intellectual capital. I help my clients preserve these types of capital to enrich generations to come and ensure that this true wealth is reaffirmed and readopted through one's life story—a memoir—of your legacy!

Your Legacy • Your Life • Capture it NOW!

To Be Remembered For Generations**

How I Assist Others

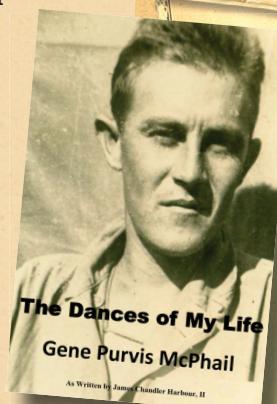

For those not inclined to write about themselves, I offer my services to assist them in writing their life stories.

I sit down with my clients and take them through a list of over 600 questions about their past—youth, teenage years, children, adulthood, and up to the present. I also gather relevant family questions and story topics to include. In addition, I scan family photos for use in the final document. After one-on-one discussions and interviews, I take the information and create a personal narrative. Clients receive both soft copies and printed books of their life stories.

Those who have used my services have been extremely satisfied. The books I create for them are often their most cherished possessions.

My services are available for personal stories or can be purchased as a gift for others. A more personal, meaningful, or heartfelt gift can't be found for a loved one including a spouse, parent, grandparent or child. This is a priceless gift—a family heirloom for generations to come.

A Priceless Gift

I decided to hire Chad Harbour for the task of capturing my father's life story. I had the opportunity to sit in on some of the interviews, and I was amazed at the stories told that I never knew. I laughed at times, was amazed at times, and came away from it all saying, "Wow!" I was so glad Chad was able to assist me in this. Chad's kindness and caring during the process were simply amazing. He is truly a gifted professional in writing life stories, and our family is thankful for all of his efforts.

Dear Chad:
I would like to thank you for the life story you completed for my father. When I first thought about it, I was skeptical. I wondered how long it would take, could my father think up enough things to say, etc. But now that I have been through the process, I can't tell you how glad I am that I did it! You make it so easy! Your excitement about the project, your interviewing skills, patience, and professionalism are truly great! I am so glad I found you! My only regret is that I did not know about you before the death of my Uncle Jake. What a story he would have had! Thanks again so much for helping me get such a "Wonderful Life" story to be handed down for generations to come! It was a pleasure doing business with you!
